EXPERIENCE

SENIOR INFRASTRUCTURE ANALYST/AWS SYSOPS ADMINISTRATOR/DEVOPS ENGINEER, GEOCOM, URUGUAY
Apr 2023 – Present

Technology Stack: AWS: EC2 | Azure: Virtual Machines | Others: Linux, Nginx, Apache2, JBoss, Wildfly, Apache Tomcat, Jenkins, Ansible, VMware, Oracle VM Server, OracleDB, Kubernetes, Graphana, Zabbix, CentOS, WAFs, Windows Server, Cisco Tools, Office 365, Docker, ELK, Gitlab, Jira, Confluence, Bitbucket, MariaDB, Bash, Troubleshooting
Installing, maintain kubernetes cluster on debian linux servers, also deploy applications like drupal and word-press, besides expose those service to internet.

DEVOPS/SYSOPS/SYSADMIN LINUX, DEVSYSOP, URUGUAY

Dec 2022 – Present

Technology Stack: Kubernetes, ArgoCD, Helm, Graphana, GitHub, Git, HTML, Linux, Nginx, Drupal, Wordpress, Docker, MariaDB, PostgreSQL, Bash, Troubleshooting

Installing, maintain kubernetes cluster on debian linux servers, also deploy applications like drupal and word-press, besides expose those service to internet.

DEVOPS ENGINEER, SOHO, URUGUAY

Feb 2022 – Dec 2022

Technology Stack: AWS: EKS, ECR, Lambda, S3, Route 53, API Gateway, DocumentDB, RDS, Elastic Beanstalk, CloudWatch, Cognito, IAM, Secrets Manager, EC2 | Azure Devops: Repos, Pipelines | Others: Linux, Nginx, Apache2, Wordpress, NodeJS, Docker, MariaDB, PostgreSQL, Bash, Troubleshooting

- As a member of the Devops team, I had to build the infrastructure for the project using Terraform on AWS, also working closely with developers to create CI/CD pipelines that will deploy microser- vices by any developer pushing a change. By the way, I had the chance to use Bitbucket Pipelines for another project that needed to make changes to Linux Server or Elastic Beanstalk.

DEVOPS ENGINEER, INSWITCH, URUGUAY

Dec 2021 – Feb 2022

Technology Stack: AWS: EKS, S3 | Azure Devops: Repos, Pipelines | Others: Linux, Nginx, Apache2, Jenkins, SonarQube, Jaeger, NodeJS, Groovy, Maven, Go, Ansible, Terraform, VMware, IBM Cloud, Openshift, Kubernetes, Helm, Helmfile, Graphana, RabbitMQ, ELK, Nexus, JFrog Artifactory, Maven, Gitlab, Jira, Confluence, Bitbucket, OracleDB, MariaDB, PostgreSQL, Bash, Erlang, Quarkus, Troubleshooting

- As Devops Engineer I had to work with clusters on K8s, OKD, EKS and VMware. Create or replicate CI/CD integrations with pipelines using tools like Jenkins and Gitlab.

SYSOPS ADMINISTRATOR, SONDA, URUGUAY

Nov 2019 – Dec 2021

Technology Stack: AWS: EC2 | Azure: Virtual Machines | Others: Linux, Nginx, Apache2, JBoss, Wildfly, Apache Tomcat, Jenkins, Ansible, VMware, Oracle VM Server, OracleDB, Kubernetes, Graphana, Zabbix, CentOS, WAFs, Windows Server, Cisco Tools, Office 365, Docker, ELK, Gitlab, Jira, Confluence, Bitbucket, MariaDB, Bash, Troubleshooting

- As SysOps, I had to work with any kind of requirements like create/build/maintain VMs/containers in any cloud, even I had to use VMware On-Premise for a specific task, I also started to implement automation and create or replicate pipelines using Jenkins.

LINUX SYSTEM ADMINISTRATOR, ETECSA, CUBA

Sep 2018 – Sep 2019

Technology Stack: Linux, Nginx, Apache2, Ansible, Proxmox, Zentyal, MariaDB, Ubuntu, Debian, Bash, Troubleshooting

- As SysAdmin Linux i had to keep containers virtualized with Proxmox online, create scripts bash for auto- mate server installations, manage dns server and active directory using zentyal server.

LINUX SYSTEM ADMINISTRATOR, DATYS, CUBA

Jun 2014 – Sep 2018

Technology Stack: Linux, Nginx, Apache2, Proxmox, Windows Server, Nexus, MariaDB, Debian, Bash, Gitlab, Drupal, Joomla, Troubleshooting

- In this position I had to work with virtualized linux servers with Proxmox, configure services like DHCP, nginx, PostgreSQL, as well as develop websites for internal infrastructure using Drupal, Joomla among others.

SKILLS

AWS, Azure, GCP, IBM Cloud, VMware, Proxmox, Ansible, Terraform(Basic), Bash, Groovy, Debian, Ubuntu, CentOS, OpenSUSE, Fedora, Redhat, Windows Server, Zabbix, Nagios, Graphana, Prometheus, Jenkins, Azure Devops, Bitbucket Pipelines, Bitbucket, Git, Github, Gitlab, Openshift, Kubernetes, Docker, Docker Compose, Vagrant, Nginx, Apache2, Wildfly, Tomcat, JBoss, MariaDB, PostgreSQL, OracleDB, Helm, Helmfile, Cisco, Fortinet, Jira, Confluence, Slack, Offices365, Veeam Backups, Troubleshooting, Zimbra, Zentyal

LANGUAGE

Spanish - Native

English - Advanced

EDUCATION

JOSÉ ANTONIO ECHEVERRÍA

TECHNOLOGICAL UNIVERSITY

Sept 2016 - July 2019 | Cuba

Telecommunications and Electronics Engineering - Incomplete

OSVALDO HERRERA POLYTECHNIC

INSTITUTE OF TELECOMMUNICATIONS

Sept 2004 - Jul 2008 | Cuba

Technical Bachelor in Electronics (B.Elect.) - Completed

COURSES

WEBSHERE APPLICATION SERVER

V9 ADMINISTRATOR

06/2020 - 07/2020 | TechData, Uruguay

LINUX SERVICES ADMINISTRATOR

2017 - 2018 | DATYS, Cuba

LINUX SYSTEM ADMINISTRATOR II

06/2011 - 08/2011 | UCI, Cuba

LINUX SYSTEM ADMINISTRATOR I

06/2010 - 08/2010 | UCI, Cuba
